

Dr. Anthony E. Hechanova is the Director of the Nuclear Science and Technology Division of the Harry Reid Center for Environmental Studies at the University of Nevada, Las Vegas. He has been a research scientist at UNLV since 1995 conducting research in nuclear engineering and radioactive waste management. He is currently the program manager of the UNLV Transmutation Research Program that supports the national Advanced Fuel Cycle Initiative and the UNLV Research Foundation High Temperature Heat Exchanger Project for the national Nuclear Hydrogen Initiative. His primary research activities are on the design and testing of high temperature heat exchangers for hydrogen production from nuclear energy.

Dr. Hechanova is the Vice Chair/Chair-Elect of the Accelerator Applications Division of the American Nuclear Society and Executive Committee member of the ANS Nevada Section, and he helped to establish the UNLV ANS Student Section.

Dr. Hechanova received his M.S. and Ph.D. in Nuclear Engineering from the Massachusetts Institute of Technology. He received his B.S. and M.S. in Mechanical Engineering from the University of California, Davis.
